

CRAZY SNAKE IN TRAP OFFERS TO SURRENDER

Sends Word to Military Commander That He Desires to Give Up.

GUTHRIE, Okla., March 30.—Crazy Snake, or Chitto Harjo, the chief of the Creek Indians, offered to-day to surrender. The proffer of the wily old chief, who has been sought by five companies of State militia since Sunday, was made to officers of the militia this morning. He sent word that he desired to come in, but feared surrendering to the local authorities.

The chief states that he never desired a fight. Adj.-Gen. Canton, to whom the news of Crazy Snake's wish to lay down his arms was brought shortly before noon to-day, expressed the belief that the report was reliable. Such action, he said, was just what he expected from the old Indian, whom he knows well, and whom he does not think dangerous.

Shortly after receiving the news, Gen. Canton said: "The militia will be kept on the ground for the protection of Indians who will be brought in. The whites are surely able to meet any emergency. Because of the excitement there is a possibility that there might be rioting when the Indians are brought in and for the preventing of this we will keep troops on the ground. The local authorities can now control the situation if proper judgment is used."

The situation in the district surrounding old Hickory Camp has never been serious enough for us to declare martial law. It is unfortunate that such sensational stories became current."

MUSKOGEE, Okla., March 30.—A special despatch to this place this afternoon says that Crazy Snake has sent a message to Commander Hoffman from the mountains near the Indian reservation in the leg and crippled, and was ready to give up. He says, according to the despatch, that he will surrender to Sheriff Odum, who was killed in Saturday's fight at the Indian chief's home.

No Indians were involved in the original trouble that resulted in the militia being called out and Crazy Snake had a right to defend his home from the attack of irresponsible persons and even officers of the law. He was not authorized to arrest him, according to the finding of Special Attorney Woodruff and Indian Agent Kelsay, after several hours investigation at Henrievetta today. This report reached the Indian Agency here this afternoon.

It stated, in addition, that negro outlaws congregated at Hickory Grounds were the only persons who started the trouble, and that the intervention of the Federal Government will be invoked for the protection of the Indians, including Crazy Snake, if necessary.

TAFT WILL NOT BE SWERVED BY PARTY LEADERS

Congressman Cox, Attacking Tariff Bill, Holds President Will Act for Himself.

WASHINGTON, March 30.—The lagging interest in the tariff discussion was made manifest to-day when it was observed that but a dozen members were in their seats upon the convening of the House, and that for the most part these were the ones scheduled to speak. To-day's debate was opened by Congressman Cox, of Ohio, who, referring to various witnesses before the Ways and Means Committee, said:

"A prohibitive tariff inspires such a lust for gain and gold that these men come here and swear their souls down to the gates of hell in order to get a government license to rob the people."

Mr. Cox said there was a large measure of public belief that President Taft would follow policies quite contrary to the Republican leaders.

Mr. Cox pleaded for a reduction in the duties on sewing machines, bicycles and computing scales. He argued that by reason of the favored nation clause Germany was enabled to manufacture and ship sewing machines and bicycles at about half the tariff imposed on the same articles of American manufacture. Because of this fact the American manufacturer was handicapped in extending his foreign trade.

Hard Times Compared.

Asserting that the Payne Tariff bill is really a revision downward, Representative Bates, of Pennsylvania,

Is Your Hair Falling?

When your scalp is too dry or too oily, covered with dandruff or irritated, when your hair falls, splits or fades and loses its lustre, vigor and beauty, it should have immediate and intelligent treatment. The methods used at my office speedily overcome all scalp troubles, restore the lustre to the hair and promote a luxuriant and beautiful growth.

I give you my personal attention, and unless my treatments are entirely satisfactory I will refund your money. Call, write or telephone (213-24th St.) for advice, information or appointment.

JAMES B. QUINN

1103 MONOLITH BUILDING

45 West 34th St., New York

spoke in favor of a protective tariff.

The difference between a revenue tariff and protection is that increase which will stop ruinous competition, he said. "The plate at a cost of 1 cent per pound means," he said, "the employment of 1,000 American working men. It means annual wages of \$10,000,000 per year, and a net saving to the American people by reason of a lower price paid for tin for the last twelve years of nearly \$50,000,000."

We have nothing of kind times in this country during the past year compared with the experiences of Europe, and especially England and Ireland, where he practised the tariff for revenue policy, which is to-day advocated by our Democratic friends on this floor," continued Mr. Bates.

He declared that in Belfast, which is the centre of the textile fabric industry, and where 12,000 hands are employed, the wages of the men range from \$6 to \$8 per week, and those of the women from \$2 to \$4 per week, while the wages of the men and women performing the same labor in this country are from two to three times as much. The average work week is five hours, and workmen only exist by the closest economy.

Proceeding, Mr. Bates said: "Let us not be led astray by the deceptive cry for cheap goods. Cheap goods means a cheap man. The main question for us to solve is not how cheaply can we purchase goods, but what is the state of the market—the market for labor and all that labor produces."

Hurt Oil Independents. Retaliating that he was partly responsible for retaining the countervailing duty on crude and refined petroleum, Mr. Vreeland, of New York, said that while to many people oil and standard oil seemed synonymous there were 50,000 American citizens bringing to the

surface every day nearly \$500,000 worth of crude petroleum who had no more to do with the Standard Oil Company than had the farmer who raised wheat to do with the miller to whom he sold it.

Mr. Vreeland gave the schedule based on hundreds of petitions from independent oil producers, and that the removal of the countervailing duty would not benefit the Standard Oil, but seriously injure the business of the independents.

F. A. JACKSON DEAD.

NEW HAVEN, Conn., March 30.—Frederick A. Jackson, of West Haven, well known as an amateur photographer and a pioneer in color photography in this country, died at his home yesterday of typhoid pneumonia. He was sixty-four years old. He leaves a family.
